

Building a global scientific world

CNRS International symposium

26 November 2019

Institut de France - 3, rue Mazarine Paris 6^e

Programme

8:30am ~ 9:30am	REGISTRATION - REFRESHMENTS	
9:30am ~ 10:00am	OPENING SESSION	Etienne Ghys , Perpetual Secretary of the Académie des sciences Antoine Petit , CNRS Chairman and CEO Mariya Gabriel , Commissioner for Digital Economy and Society Jean-Éric Paquet , European Commission Director-General for Research and Innovation
10:00am ~ 11:15am	PANEL #1 Open Science: a revolution in the making	Claire Giry , Inserm Vice-CEO Horst Hippler , Former President of the German Rectors' Conference Shekhar Mande , Director General of the Indian Council of Scientific and Industrial Research Rosa Menéndez , President of the Spanish National Research Council Sylvie Rousset , Director of the CNRS Scientific and Technical Information Department Ennio Vivaldi , Rector of the University of Chile Yaping Zhang , Vice-President, Chinese Academy of Sciences
<p>As countries all over the world have set a goal of 100% open access publications for public research, how are these initiatives being implemented and perceived by Research Performing Organisations (RPOs) and scientists, whose work and evaluations will need to adapt? How can RPOs help strengthen and streamline the open access repositories created over the past 30 years, such as ArXiv or Hal, still work with the publishing oligopolies that control today's market, and suggest publishing alternatives? What are the next steps for preserving data in the public domain in line with the FAIR (Findability, Accessibility, Interoperability, and Reusability) principles, endorsed by the leaders of the G20 in 2016. This discussion will cover all topics, from scientific publishing and open access, to open data and the culture shift needed to achieve true Open Science.</p>		
11:15am ~ 11:45am	BREAK	
11:45am ~ 1:00pm	PANEL #2 International expert panels: a universal model?	Thomas Arnold , Advisor, SDG, European Commission Françoise Gaill , Vice-President of the Ocean & Climate Platform Malik Ghallab , Senior researcher <i>emeritus</i> , CNRS-LAAS Lamine Gueye , Director, ESS, UCAD-CNRS François Héran , Migrations Chair, Collège de France Peder Jensen , Head, International Resources Panel, UN Environment Stéphanie Thiébaud , Director of the CNRS Institute of Ecology and Environment
<p>International Expert Panels provide society and decision-makers with science-based syntheses on global issues. As such, they represent opportunities for scientific communities to help solve societal challenges, as well as identify their future evolutions. International panels are key arenas to engage in high-level dialogue, from specific topics to the importance of scientific research, and from science planning to its communication and outreach. Drawing from existing panels, such as those on AI, migrations, and the environment, this round-table will discuss their roles and impact from a scientific perspective.</p>		
1:00pm ~ 2:15pm	NETWORKING LUNCHEON	
2:15pm ~ 2:45pm	KEYNOTE	Stuart Firestein , Director of the biology department at Columbia University
2:45pm ~ 3:15pm	DISCUSSION International Research Laboratories: building successful partnerships	Patrick Nédellec , Director of the CNRS European Research and International Cooperation Department Marie-Dominique Nenna , Director of the Centre d'Études Alexandrines Gaël Sebald , Head of the ELyTMaX International Research Laboratory
3:15pm ~ 3:30pm	KEYNOTE	Jean-Pierre Bourguignon , President of the European Research Council
3:30pm ~ 4:45pm	PANEL #3 Coopetition: joining forces for the sake of science	Ursula Bassler , 2019 President of the CERN Council Julie Maxton , Executive Director, UK Royal Society Noureddine Mouaddib , President, UIR, Morocco Vladislav Panchenko , Chairman, Russian Foundation for Basic Research Antoine Petit , CNRS Chairman and CEO Rémi Quirion , Chief Scientist, Quebec, Canada Koji Saeki , Senior Vice-President, Japan Science and Technology Agency
<p>The fusion of cooperation and competition, this catch-all term describes complex relations between research teams and between countries. Being international, research pays little heed to borders, yet at the same time is dependent on public funding. What are today's limits of coopetition?</p>		
4:50pm	CLOSING SESSION	Frédérique Vidal , French Higher Education, Research and Innovation Minister
5:05pm	COCKTAIL RECEPTION	

The symposium will be held in English.
The debates will be conducted by Maryline Fiaschi,
Managing Director at Science | Business.

80 years of building new worlds through knowledge
